From: Kathi Wiederhold

Subject: Item 5 – Proposed New Public Participation Program

Action Recommended: Review, discuss, and provide feedback on the proposal.

Issue Summary

The Metropolitan Policy Committee (MPC) has directed staff to develop a new public participation program for the Metropolitan Planning Organization that costs less and involves broader outreach to and participation from more people than the current program.

Background

A subcommittee of the MPC looked at the MPO public participation program in early winter 2012. MPC received and accepted their recommendations at their meeting in December 2012. Subcommittee members Mayor Christine Lundberg, Mayor Kitty Piercy, and Commissioner Sid Leiken came to the December CAC meeting to explain the new, more limited charge and meeting schedule for the CAC. The goal is to develop a new, more efficient, public participation program that costs less and yet results in broader public participation, both in outreach to, and input from, more people and stakeholder groups. The CAC's work in 2013 will focus exclusively on providing feedback on staffs' development of a new draft public participation program for the MPO.

Proposal for New MPO Public Participation Program

In drafting the proposal (refer to Attachment 1), staff considered the following questions:

- What are the basic public outreach tools the MPO should use to meet federal requirements?
- For which MPO products would the basic outreach tools be adequate?
- Which MPO products might need outreach beyond the basic?
- What might outreach beyond the basic consist of?
- Should the Public Participation Plan specify the outreach beyond the basic or provide more general guidance with each outreach effort designed ad hoc specifically for the purpose at hand?

- What are the ways the MPO will reach out to transportation disadvantaged¹ groups?

Attachment 2 to this memo presents the current summary of Public Outreach Tools in the existing Public Participation Plan. Attachment 3 presents a draft summary of the proposed Public Outreach Tools as outlined in Attachment 1.

Beyond the Public Outreach Tools and approaches outlined in Attachments 1 and 2, the new Public Participation Plan that will be developed to document the MPO's Public Participation Program will also address the following points:

- Regulatory and Policy framework for the Public Participation Plan
- Evaluation of the Public Participation Plan
- Accessibility of materials via posting to the web, visualization, interactive maps, and availability in other languages and formats upon request
- Minimum time frames for public input on proposed actions
- How are comments from the public, both during, and outside of, a formal public comment period, handled by the MPO?

Action Requested

Staff requests CAC discussion and feedback on the draft proposal. Staff suggests the following questions to consider: Does the proposal meet federal requirements and address MPC direction? Are there other tools or techniques we should consider? Are there gaps in the proposed program?

Next Steps

Staff will use CAC feedback to flesh out the proposal. MPC may provide additional direction as they review the draft 2014-2015 MPO Unified Planning Work Program at their April meeting. The CAC will review a revised public participation program proposal at the April 18 CAC meeting. Staff will check in with MPC at their May meeting and may present a draft of the new public participation program if it is ready. Once MPC is satisfied with the draft, staff will prepare any necessary amendments to the Public Participation Plan, which require a 45-day public comment period.

¹ Transportation disadvantaged groups include youth, seniors, low income, minorities, and those with limited English proficiency or who do not have access to a car.

Attachment 1: Proposed New MPO Public Participation Program
DRAFT March 14, 2013

Overall Goal: Achieve broader outreach to, and participation from, more people at lower cost through an array of tools including online input, surveys, interactive maps, and both targeted and ongoing outreach to existing stakeholder groups to gather project-specific comments as well as keep a finger on the pulse of the region's priorities.

What are the basic public outreach tools the MPO will use to meet federal requirements?

- Opportunity for input on specific proposed actions via Public Comment Periods, and, where appropriate, Public Hearings (see Attachment 2)
- Notice to interested parties, via email, of proposed actions, including identification of opportunities for the public to provide input
- Web notice of proposed actions, including identification of opportunities for the public to provide input
- Ongoing dialog with key stakeholder groups (see illustrative list below under Speakers Bureau) – this will accomplish at least two goals: early notice of, and involvement in, topics coming before the MPO Policy Board, and continuous input to the ongoing work of the MPO

For which MPO products would the basic outreach tools be adequate?

The MPO will conduct basic public outreach for all key MPO products.

Which MPO products might need outreach beyond the basic?

Staff will review each product on a case-by-case basis and make a recommendation to MPC when public outreach beyond the basic is needed. The products most likely to need more outreach are:

- Public Participation Plan adoption
- Regional Transportation Plan adoption
- Statewide Transportation Improvement Program funding
- Surface Transportation Program-Urban funding

What might outreach beyond the basic consist of?

All of the basic outreach tools, plus additional, which may include but is not limited to:

- Ad hoc advisory committee
- Articles in organization newsletters, e.g. churches, interest groups
- Electronic newsletter articles, e.g. InMotion and Chamber newsletters
- Flyers posted in community gathering places in English and Spanish
- Interior bus posters in English and Spanish
- Media release
- MetroTV calendar item, in English and Spanish
- Newspaper display ads in English and Spanish
- Online interactive map
- Online public participation tool, e.g. MindMixer or Crowdbrite

- Online survey
- Open house (could be online)
- Outreach at community events, e.g. Eugene Celebration, etc.
- Postings on MPO partner websites
- Speakers Bureau – targeted outreach and presentations to local groups such as:
 - Centro Latino Americano
 - Chambers of Commerce
 - Human Services Network
 - LaneACT
 - Lane Coalition for Healthy Active Youth
 - Lane Economic Committee
 - Latino Business Network
 - LCOG Disability Services Advisory Council
 - LCOG Senior Service Advisory Council
 - League of Women Voters
 - Local bicycle, pedestrian, or other transp.-related advisory committees
 - LTD Accessible Transportation Committee
 - Oregon Black Business Alliance

Should the Public Participation Plan specify which outreach tools to use or provide more general guidance with each outreach designed ad hoc?

Staff proposes that the Public Participation Plan provide general guidance about when to consider more outreach, the intent of more outreach, and examples of more outreach tools.

What are the ways we reach out to transportation disadvantaged groups?

The basic outreach meets Title VI requirements by making materials available on the website and making them accessible, e.g., in different formats and languages, upon request. Additional outreach to transportation disadvantaged groups for those products that need outreach beyond the basic will consist of presentations to the Human Services Network, LTD Accessible Transportation Committee, and LCOG Disability Services Advisory Council.
