

Agenda Item Number 11.D.

Endorsement of Lane Community College Bond Issue Measure, November Election

Presenter: George Kloeppel

Action Recommended: Endorse LCC Bond Measure

Background:

Lane Community College has placed a proposed bond issue of \$83 million before the voters of the district at the November election. This month, the Executive Committee reviewed the money measures being submitted to the people by Lane County local governments. All were considered important.

Because the LCC measure would finance facility and technology improvements for the College and benefit the citizens of the entire county and because it would effectively extend, but not increase, existing bond financing, it was the conclusion of the Executive Committee that all LCOG members would benefit by the passage of the measure. Hence, it is the Committee's recommendation that the LCOG Board of Directors endorse the LCC bond measure and recommend a Yes vote by the electors of the district at the November election.
