

**Agenda Item Number  
13.**

**Special Presentation and Discussion  
2009 Legislative Session  
Legislative Dialogue**

Members of Lane County's legislative delegation will be present to share their priorities and expectations for the 2009 Session. Attached is a copy of the memo sent to the delegation outlining the broad interests of LCOG's member jurisdictions. The "bullets" presented in the memo were not offered in priority order, nor was the listing intended to address specific legislation. Rather, the memo serves as a starting point for a dialogue with the delegation.

The LCOG Executive Committee determined that three brief presentations on key legislative topics should be offered by Board members at the beginning of the Dialogue. Then, the members of the delegation will be afforded an opportunity to make individual statements. Finally, a question-answer period will provide for a genuine dialogue between local officials and the legislators.
