December 3, 2009

Milo Mecham
Lane Council of Governments
859 Willamette Street, Suite 500
Eugene, OR 97401-2910

Dear Mr. Mecham:

Thank you for coming to speak to the City Council last evening and for providing information and a summary of your proposed project. We appreciate your ability to attend on very short notice.

You have met with representatives of the City of Canby on two other occasions concerning the development of a bio fuels facility at the Canby Industrial Park. You have explained the train of events that led the Lane Council of Governments to be involved in the investigation of the possibility of developing a bio fuels facility, including possibly becoming a property owner in the Canby Industrial Park.

Canby is interested in pursuing the possibility of developing a bio fuels facility at the Industrial Park, and is comfortable with the Lane Council of Governments' involvement in the process. While it is still very early in the project, the prospect of Canby playing a role in helping transform agricultural and food waste into useful energy rather than having it thrown into the land fill or otherwise just rotting away is exciting.

If the Lane Council of Governments is able to take a leading role in a project that looks as if it will be a benefit to all of Oregon, then LCOG has Canby's support.

Best regards,

Amanda Klock
Interim City Administrator
