

Jurisdiction	Community Well-Being	Open Governance & Communication	Efficient Provision through Public Service Facilities (e.g. water, electric, sewer, roads)	Education & Work Force
Coburg Judy Volta	Elected Official Survival Hold a future discussion on taking personal care of yourself as an elected to avoid burn-out and disconnect. Examine the price one pays as an elected. Outcome: Implement a gentle, humorous way to come up with a survival plan on how to balance civic hats with personal hats	Communication among: <ul style="list-style-type: none"> • Business community • Government agencies • Citizens Not working in tandem on an Eco Devo plan. Outcome: develop a sound system	Economies-of-Scale <ul style="list-style-type: none"> • Planning • Legal Council • Special Projects Where is the break-even point? Too small to hire. LCOG rates are high, but get more 'bang for the buck'. For special projects, are there templates, prototypes already in place so we don't have to start from scratch? Outcome: deliver services within cost	
Cottage Grove Gary Williams	Public Safety <ul style="list-style-type: none"> • "Locking 'em up" • Repair CG jail to double size CG cites criminals for a lesser charge so they can keep at CG jail		Local Control issues by Lane County County Cost-shifting Review fees for a variety of services, i.e. elections. Cities now pay more	
Eugene Chris Pryor	Public Safety Infrastructure <ul style="list-style-type: none"> • Balance of Prevention & Enforcement • System for Funding 	Communication Good high-level interaction Advocacy Develop notion of advocacy / common interests. LCOG uses its cache to turn talking into action.	Transportation Infrastructure <ul style="list-style-type: none"> • Support • Funding 	
Florence Phil Brubaker	Public Safety Stable public safety funding. Ultimately earmark revenue source for entire funding for services Healthcare Stable healthcare funding. Look at "Adopt-a-Senior" or "Adopt-a-?"	Communication Develop a structural process where people can meet to think outside the box.		Education Stable education funding Look at an 11-year school system where 12 th year is mandatory government service (i.e. VISTA, Job Corps, Peace Corps)
Junction City Lance Stoddard	Public Safety View more broadly – develop a County-wide plan		Non-vehicular Interconnectivity Expand bike / pedestrian trails like Jeff K's projects. Dream Outcome: Eugene to JC; Eugene to the Coast. Cost is the obstacle but we need to be ready for the opportunity.	Employment Create jobs by attracting bigger employers. Explore obstacles for Hynix-size businesses. Small business is easy, has few obstacles.
Lowell Warren Weathers	Growth Dealing with the paradoxical reality that Lowell must grow in order to save the town way-of-life and keep the things that brought us here and keep us here. Status quo is not an option. We either have limited and controlled growth or lose the community.	Communication between government agencies. We need someone to help us navigate through the red tape jungle occupied by the Corps, GAO and Forest Service. Projects that are good ideas, mandated by congress, still have not happened (some over 10 years!).	Coaching Corps of Engineers will spend \$30 m next year on Lookout Pt. dam. We need to know how we can keep as much of that funding on our community. Is there a gov't agency that deals with this? Steve Dignam might know.	

Jurisdiction	Community Well-Being	Open Governance & Communication	Efficient Provision through Public Service Facilities (e.g. water, electric, sewer, roads)	Education & Work Force
Oakridge Don Hampton	Air Quality Air quality, particularly in winter with the wood-burning stoves, is very poor.		Public Transportation Diamond express is too full and does not operate on Saturdays	Employment Jobs are in short supply
Springfield Joe Pishioneri	Public Safety <ul style="list-style-type: none"> Find funding opportunities The reintegration and reducing recidivism pieces are missing from the plan <hr/> Senior & Homeless Populations LCOG needs a higher profile among public employees. One in Four people work for government. Need a information piece or campaign to inform government agencies. Fact: People under the age of 21 and do not have a HS diploma or GED are considered "special needs" and fall under ADA.	UGB LCOG can assist in reviewing the study for expansion and implement recommendations in a cohesive manner	Duplication of Services Need to find out if there are duplications of service and determine what can be combined and/or eliminated. Outcome: Improved efficiency.	
Willamalane Greg James	Public Safety <ul style="list-style-type: none"> Increase jail bed space Improve accountability in directing newly released inmates to social services Improve the social network to which the referrals are made <hr/> Social Services <ul style="list-style-type: none"> Lobby for funding by getting the word out there of what the S&DS clients' needs are Develop a one-stop-shop for social services (i.e. a central location for all needs: clothing, food, healthcare)		Transportation <ul style="list-style-type: none"> As a COG, the ACT is a start in expanding the transportation region. Special districts currently are not in the loop, but with the ACT they will be better informed and have more opportunity for discussion. The meeting at Station 1 led by the ODOT person was very beneficial. Develop better <u>regional</u> plan and be prepared for funding opportunities.	
EPUD		Legislation Continue to address the legislature about rolling out unfunded mandates.	Electric Rate Forecast Entities need to realize what is on the horizon regarding electrical rates. Forecast is pretty glum Outcome: Perhaps LCOG can convene a meeting with EWEB, SUB, EPUD, etc.	
W. Lane Ambulance Bob Sneddon	Financial Stability Try to balance rates, with property tax and medicare Outcome: Provide technical assistance	Succession Planning District Manager will be retiring. Outcome: Selection of qualified District Manager	Facility WLAD needs to either expand is existing facility or, preferably, replace it. Outcome: LCOG can provide technical assistance in any area	Aging Workforce The district has over half its workforce that began with the district...and worked for its predecessor, all up for retirement in the next couple years

Jurisdiction	Community Well-Being	Open Governance & Communication	Efficient Provision through Public Service Facilities (e.g. water, electric, sewer, roads)	Education & Work Force
<p>Veneta Darrell Carman</p>	<p>Park & Rec District Having been denied a state grant for Veneta's new pool construction, we are revisiting the idea of developing a park & rec district which would bring in voices and resources from an area much broader than the city limits of Veneta.</p> <p>Outcome: LCOG might have experience or knowledge in this area and help facilitate the process</p>		<p>Water Resources Conservation programs and the possibility of rural cities contracting with EWEB in the not-too-distant future. A viable long term water supply is essential to economical development, as well as the health and livability of our communities. Outcome: This is a regional issue for which LCOG might assist as champion, facilitator and mediator.</p> <hr/> <p>Transportation Highway 126 and Eugene-west transportation improvements, including the necessity of having small city representation on the ACT Possible passenger rail or other mass transit connections.</p>	
<p>Lane Library Carol Campbell</p>				<p>Library Services Look for another model besides Lane Library League's push for a county-wide library system. In crunch time, library services are the first to get cut. Perhaps local librarians can develop agreements between libraries to allow open use within the agreement regions. This would include persons in and out of city boundaries. During the recent hard times, it has been widely noted all over the nation that libraries are being used more frequently by more people.</p> <p>Outcome: I would hope that the LCOG discussion would include how it may play a role in helping people get extended library services.</p>
<p>SD 4J Jim Torrey</p>	<p>Public Safety Plan is a 3-legged stool:</p> <ul style="list-style-type: none"> • Prevention • Intervention • Accountability <p>Goal would be to reduce the number of acts, limit the scope in how to intervene; and improve accountability</p>	<p>Communication Improve communication of government issues between entities</p> <hr/> <p>Outcomes on all issues:</p> <ul style="list-style-type: none"> • Discussion: how these issues impact our area in general • Processed through Executive Committee • Identify gaps in the systems 		<p>Employment Improve job creation county-wide.</p> <p>50% of County employment lies in Eugene. Job indicator reflects the strength of education.</p>

Jurisdiction	Community Well-Being	Open Governance & Communication	Efficient Provision through Public Service Facilities (e.g. water, electric, sewer, roads)	Education & Work Force
Siuslaw Fire John Buchanan, Fire Chief	Grant Assistance Keep up the good work. Susan, along with others, got the District \$1 million <hr/> Mapping Very important to the District. Expand if possible. GPS Readings, Right Route, and disaster prep planning continues to be a valued asset			
River Road Park Wayne Helikson		Interagency Relations RRPR is very frustrated with Eugene on its recent action to quit paying tax payments. That action eliminated 25% of land within the current boundary thereby decreasing the number of residents in district. Bond measure did pass in May Eugene will not meet to discuss options. No response to a letter of complaint.		
SD 68 Sally Storm, Superintendent		Budget...Budget...Budget Frustration with the State with its timing of budget. Had to make adjustments in mid-year last year; and SD budgets are turned in for next year prior to the State adopted budget. Outcome: Board work with legislature on reaching dollar-certain budgets sooner.		Enrollment SD 68's goal is to maintain enrollment this next year. Due to the cost of gas, people are moving into town.
Lane ESD Sherry Duerst-Higgins	Healthcare Costs With the costs skyrocketing, legislators put ESDs under state pool. Look at a different option.	Governance Proposal that all board members of ESDs state-wide be appointed, not elected		Funding
SD 52 Alan Laisure				Funding, funding, funding. <hr/> Enrollment Enrollment is down in an area that is considered a "growth" area. Perhaps LCOG could assist with a population study. <hr/> Contrary to above, the district believe that this down-turn is temporary. We are seeing a lot of development and may have to look at a trend of growing pain. Look for buildable lands.

Jurisdiction	Community Well-Being	Open Governance & Communication	Efficient Provision through Public Service Facilities (e.g. water, electric, sewer, roads)	Education & Work Force
SD 19 Al King		UGB Affects school district		Online Schools Look at policy surrounding online curriculum <hr/> Student Population Increasing in Thurston Decreasing in Springfield
Lane County Faye Stewart	Public Safety Need to recognize that the County will not be operating quite the same as in the past. Outcome: How can we work together? <hr/> Human Services Effort to continue to try to meet the needs for everybody who are in need of help: child care, mental health, basic needs, housing. County programs are tapped to the max.			Economy & Job Creation Recognize the importance of the various loan programs. Funded businesses create jobs.
