

**MPC 4B -- Attachment 1 -- Potential ODOT Modernization Projects**

Estimated Project Cost	Project Name	Limits	Project Description	Comments	C-STIP Eligibility Criteria	
					Consistent with TSP; Consistent with Constrained RTP	Consistent with OHP Policy 1.G.1
<b>Over \$20 million</b>	WEP Unit 1-B	Garfield to Seneca	New 4-lane arterial	Environmental process completed, awaiting ROD. Unit 1-B would replace interim 5th-7th couplet from Garfield to Seneca/Bailey Hill.	<b>Y</b>	<b>Y</b>
	WEP Units 2-A & 2-B	W. 11th to Beltline	New 4-lane arterial	Environmental process completed, awaiting ROD. Units 2 A and 2-B would be new facility from Beltline to W. 11th near Fisher Road.	<b>Y</b>	<b>Y</b>
	Eugene-Springfield Highway (126)	I-5 to Mohawk	Widen to 6 lanes	Project is on future list in TransPlan, with corridor study (I-5 to Main St.) on constrained list.	<b>N</b>	<b>Y</b>
	Eugene-Springfield Highway (126)	At Main Street	New interchange to replace at-grade signalized intersection	Project is on future list in TransPlan. Expressway facility study is currently funded with Region 2 planning funds.	<b>N</b>	<b>Y</b>
	Eugene-Springfield Highway (126)	At Q Street/Pioneer Parkway	Interchange improvements	Project is on future list in TransPlan, with corridor study (I-5 to Main St.) on constrained list. Expressway facility study is currently funded with Region 2 planning funds.	<b>N</b>	<b>Y</b>
	Interstate 5	At Franklin Blvd.	Construct new interchange	Project is on future list in TransPlan. Project is under consideration in conjunction with Willamette River bridge replacement project. I-5 interchange study is on TransPlan constrained list.	<b>N</b>	<b>Y</b>
	Interstate 5	At 30th/McVay Highway	Reconstruct interchange	Project is on future list in TransPlan. I-5 interchange study is on TransPlan constrained list.	<b>N</b>	<b>Y</b>
	Interstate 5	I-105 to Highway 58	Widen to 6 lanes	Project is on future list in TransPlan.	<b>N</b>	<b>Y</b>
<b>\$10 to \$20 Million</b>	Beltline Highway, Stage 3	Roosevelt to W. 11th	Widen to 4 lanes, etc.	Completed environmental assessment and preliminary design. Project is on TransPlan future project list. May be partially included in final design of WEP.	<b>*</b>	<b>Y</b>
	Beltline Highway	River Road to Delta	Widen to 6 lanes	Project is on future list in TransPlan, with facility planning study on constrained list. Corridor planning funds are a pending federal earmark request.	<b>N</b>	<b>Y</b>
	Franklin Blvd.	Jenkins Dr. to Mill Street	Urban standards improvements & intersection improvements	Project is on future list in TransPlan. Recent planning work completed as part of nodal development planning in Glenwood.	<b>N</b>	<b>Y</b>
	Interstate 5	At Coburg interchange	Reconstruct interchange	This project is not in TransPlan but is now within the TMA boundary and is in the Coburg TSP.	<b>N</b>	<b>Y</b>
	Interstate 5	At Glenwood Interchange	Reconstruct interchange	Project is on future list in TransPlan. Project should be evaluated in conjunction with Franklin interchange project. I-5 interchange study is on TransPlan constrained list.	<b>N</b>	<b>Y</b>
	Eugene-Springfield Highway (126)	At 52nd Street	New interchange to replace at-grade signalized intersection	Project is on future list in TransPlan. Expressway facility study is currently funded with Region 2 planning funds.	<b>N</b>	<b>Y</b>
	Interstate 105	Coburg Road to Interstate 5	Widen to 6 lanes	Project is on future list in TransPlan.	<b>N</b>	<b>Y</b>
<b>Under \$10 Million</b>	6th-7th Avenues	Garfield to Washington	Intersection improvements for traffic capacity and operations	This project is intended to enhance capacity at several major intersections on the 6th-7th couplet (Highway 99 and 126).	<b>Y</b>	<b>Y</b>
	N. 42nd Street	Marcola Road to Weyerhaeuser RR tracks	Upgrade to urban standards	Project would benefit operation of Eugene-Springfield Highway due to proximity of interchange.	<b>Y</b>	<b>Y</b>
	Franklin Blvd.	Jenkins Dr. to Mill Street	Urban standards improvements	First phase of Franklin improvements, including sidewalks, setbacks and bike lanes. Project is on TransPlan future project list.	<b>*</b>	<b>Y</b>
	Highway 99 North	Garfield to Roosevelt	Urban standards improvements	The TransPlan future projects list includes upgrading this portion of Highway 99 to urban standards. Project is on TransPlan future project list.	<b>*</b>	<b>Y</b>
	Interstate 105	Washington Jefferson Bridge	Add SB lane from 1st to 6th	Project is on future list in TransPlan.	<b>*</b>	<b>Y</b>
	Interstate 105	Washington Jefferson Bridge	Add NB lane from 6th to Delta Hwy.	Project is on future list in TransPlan.	<b>*</b>	<b>Y</b>
	Jasper Road	42nd tp JR Extension	Upgrade to urban standards	Project is on future list in TransPlan.	<b>*</b>	<b>Y</b>
	McVay Highway	I-5 to Franklin	Upgrade to urban standards	Project is on future list in TransPlan.	<b>*</b>	<b>Y</b>
	W. 11th Ave. (126)	Green Hill Rd. to Terry St.	Widen to 4 lanes	Project includes upgrading this portion of West 11th (Highway 126) to urban standards and adding two travel lanes. Project is on TransPlan future project list.	<b>*</b>	<b>Y</b>
	Interstate 105	Delta Highway to Coburg Road	Widen to 6 lanes	Project is on future list in TransPlan.	<b>N</b>	<b>Y</b>

NOTES: Y = Eligibility criterion is satisfied. N = criterion is not satisfied because project is not in RTP Constrained list and would be difficult to add to Constrained list by 08-09. \* = project is on RTP Future list and could possibly be added to Constrained list for project to be constructed in 08-09.
