

Agenda Item 4. CAC Work Program
Attachment 1
CAC Agenda Items
June 1, 2008 – May 31, 2009

Note: Most items are covered at multiple meetings to allow time for a background primer, review of the draft, and making recommendations. Other items take several meetings to allow time to delve into the detail the CAC wants to cover. An example is as the 2009 annual review of the Public Participation Plan, which the CAC dealt with over four meetings. Other items, such as follow-up from the annual review of the Public Participation Plan, are scheduled on a standing basis to keep the CAC up-to-date on progress and ensure ongoing input towards implementation.
