Action Recommended: Request for Feedback

Discussion

The Oregon Metropolitan Planning Organization Consortium (OMPOC) will be hosting a summit in November of 2020. The goal is to provide a forum for elected officials, land use and transportation professionals and other interested parties from across the state to learn about and discuss common needs, issues and solutions pertaining to transportation and land use challenges facing Oregon's metropolitan regions and surrounding areas.

OMPOC is particularly interested in hearing from you, our statewide policy leaders and elected officials on the themes that are of most significance. Feedback received from the survey attached will be used to build an agenda and to target presenters.

The survey is [here](#) and is attached for discussion.
