

What is a COG?

A Council of Governments is a voluntary association of cities, counties and special purpose districts within a region. COGs serve as regional planning, coordination, program development and service delivery organizations in local communities across the nation. Local issues often cross jurisdictional boundaries and can be most effectively addressed by communities working together within a regional forum.

Councils of Governments solve area-wide problems. COGs are designed to help the public sector operate more efficiently and effectively through the pooling of resources so that communities accomplish more than they could individually.

In Lane County, Oregon, the advantages of cooperation and joint ventures between local governments were recognized in the mid-1940s. LCOG has no taxing or ordinance authority; rather, it conducts its work at the direction and with the voluntary participation of its member agencies. Thirty-five governments and agencies are members of LCOG.

**Serving
Lane County
Since 1945**
