

Central Lane MPO Annual Listing of Obligated Projects Federal Fiscal Year 2023

November 2023

Introduction

The projects and programs contained in the Central Lane Metropolitan Planning Organization (CLMPO) Transportation Improvement Program (TIP) and for which federal funds were obligated during Federal Fiscal Year 2023 (FFY 2023), which began October 1, 2022 and completed September 30, 2023, are documented in this Listing of Obligated Projects.

Obligation is defined as the federal government's commitment to pay the federal share of a project's cost. Federal funds programmed in the TIP are obligated by either the Federal Highway Administration (FHWA) or the Federal Transit Administration (FTA). For FTA projects, obligation occurs when an FTA grant is awarded and available for execution following Department of Labor review. For FHWA projects, obligation occurs when a project agreement is executed, and Oregon Department of Transportation (ODOT) requests that federal funds be obligated (made available) for reimbursing project costs.

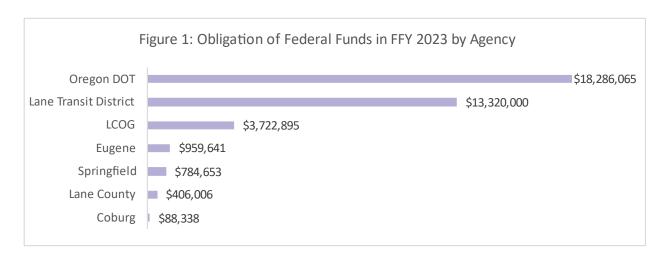

All projects, project phases, and programs that use federal funds within CLMPO's boundaries are required to be listed in both the approved TIP and the State Transportation Improvement Program (STIP). 23 CFR 450.334 requires MPOs to publish an annual listing of projects for which federal funds (under 23 U.S.C or 49 U.S.C. Chapter 53) were obligated in the preceding federal fiscal year. Information contained in this report was obtained from FHWA's FMIS (Fiscal Management Information System), the state financial plan, and from Lane Transit District (LTD) staff regarding FTA grants.

Central Lane MPO

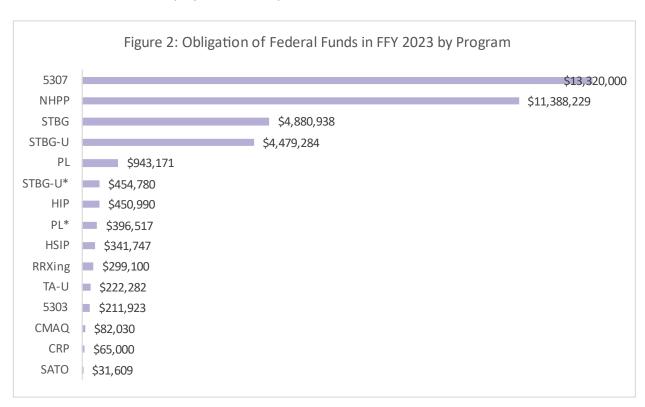

Lane Council of Governments is the designated Metropolitan Planning Organization (MPO) for the Eugene-Springfield urbanized area located in central Lane County, Oregon, referred to as the Central Lane MPO (CLMPO). CLMPO is responsible for planning, programming, and coordinating federal transportation investments within the region and serves as a forum for cooperative regional transportation decision making. To achieve this objective of regional transportation planning, CLMPO has developed important partnerships with Federal agencies, the State of Oregon, City of Eugene, City of Springfield, City of Coburg, Lane County, Lane Transit District (LTD) advocacy groups, the public, and other partners.

Summary of Federal Obligations

A total of **\$37,567,598** of federal funds were obligated in FFY 2023 to 29 transportation improvement projects and programs within the CLMPO area. Figures 1 and 2 illustrate the obligation of these federal funds in FFY 2023 by agency and by federal funding program, respectively.

Federal funds obligated for ODOT-sponsored projects represent 49% of the total obligations in FFY 2023 within the MPO, and LTD's projects were responsible for 35%.

More FTA Section 5307 funds were obligated (35% of total) than from any other federal funding program in FFY 2023 within the MPO. National Highway Performance Program (NHPP) was the second most obligated funding program (30%).

CLMPO is annually allocated federal funds through the following programs: Surface Transportation Block Grant (STBG-U) program for urban areas of a population greater than 200,000; Transportation Alternatives set-aside (TA-U); Congestion Mitigation and Air Quality improvement program (CMAQ); Carbon Reduction Program (CRP); and occasionally Highway Infrastructure Program (HIP) funding. CLMPO has discretion in the programming of these federal funds through the development of the

Transportation Improvement Program (TIP) and must obligate the funds within a specified amount of time. Of these MPO discretionary federal funds, \$5,299,586 were obligated in FFY 2023. The obligated amounts are listed below by funding program:

STBG-U	\$4,479,284	CMAQ	\$82,030
HIP	\$450,990	CRP	\$65,000
TA-U	\$222,282		

See the <u>Funding Programs</u> section for more information about these and all other funding programs referenced in this report.

Negative Obligations

This report also includes negative obligations of federal funds. These amounts appear in the listing as negative dollar amounts. Negative obligations occur any time previously obligated federal funds are removed from a project or phase, and most commonly reflect a project closeout upon completion or a fund source change. In most cases negative obligations return to the budget's bottom line to be utilized for other projects. Negative obligations in FFY 2023 totaled \$1,723,732.

Listing of Federal Obligations

The following section lists CLMPO's FFY 2023 federal obligations. Obligations are listed by agency and by STIP key number. The list includes only projects for which federal funds were obligated or de-obligated in FFY 2023. All data reflect the status of each project as of November 2023. Below are descriptions for the terms in the column headings.

<u>STIP Key</u>: A project is identified by a unique "key number" which is assigned by ODOT when the project is entered into the State's financial plan. Multiple project phases may exist within a single STIP Key. Although funding may be provided annually for some activities (such as Regional Transportation Options or Regional Transportation Planning), each separate funding increment of these recurring activities is considered a distinct "project" for the purposes of the financial plan and is given a unique key number.

<u>Federal Proj. No.</u>: Federal aid projects are assigned a federal identification, required to be listed here.

<u>Work Type</u>: This field, as listed in the STIP, identifies the main purpose of the work being done. These may include Bicycle/Pedestrian, Bridge, Air Quality, Culvert, Modernization (projects which add capacity), Operations, Planning, Pavement Preservation, Safety, Transit, Transit Capital, Transit Operations, Transportation Demand Management, Special Programs, Americans with Disabilities Act compliance and others. Some projects are identified in the STIP as having multiple work types.

<u>Phase</u>: A transportation project generally has multiple stages of work (phases). The phases for which federal funds were obligated are listed and include Planning (PL), Preliminary Engineering/Design (PE), Right of Way Acquisition (RW), Utility Relocation (UR), Construction (CN), and Other (OT).

<u>Funding Program</u>: The source of the federal funds obligated (See *Funding Programs*)

<u>Fund Code</u>: Usually four-digit alpha-numeric code established by USDOT that identifies the authorization of the funding as well as the program and any sub-category within that program. These codes are required to be included in this listing.

FFY 23 Fed. Obligation: Federal funds obligated in FFY 2023. Negative amounts reflect de-obligations.

Total Fed. Programmed: Total federal funds programmed in the TIP for all phases of the project

Prior Fed. Obligation: Total federal funds obligated prior to FFY 2023 for any phase of the project

Fed. Obligation Remaining: Total federal funds remaining to be obligated for the project after FFY 2023

<u>Total Project Cost</u>: The total estimated cost of the completed project as listed in the TIP November 2023, including Federal, local, State, and any other funding programmed for this project.

<u>B/P</u>: Projects that include investments in pedestrian walkways or bicycle transportation facilities are identified with an "x" under this (Bicycle/Pedestrian) column.

Project Descriptions

The following pages provide project descriptions as included in the TIP for each of the projects for which federal funds were obligated in FFY 2023 within CLMPO, listed alphabetically by agency.

City of Coburg

N. Coburg Industrial Way Engineering for preservation of roadway surface to extend the useful life of the facility from 750ft north of Pearl St to Trail's End Park with new striping for bicycle lanes. Includes shared-use path along west side of N Coburg Industrial Way from Sarah Lane Connector to Wetland Park to promote the use of alternative forms of transportation.

City of Eugene

<u>13th Ave: Lincoln St to Alder St (Eugene)</u> Safety projects at various locations including illumination, intersection work, bike/pedestrian improvements, ADA upgrades, signal work, signs, striping, medians; Construct two-way protected bikeway along 13th Avenue from Alder Street to Olive Street.

Coburg Rd: Ferry St RR bridge to Willamette R bridge (Eugene) Bridge #06648: Cleaning, preparation and spot paint; concrete overlay and other repairs per inspection report. Bridge #40056: Deck sealing, crack repairs to girder top/deck interface, epoxy injection cracks, repair spalling. Perform seismic analysis and preliminary design for seismic strengthening on bridges #06648, 40056 and 07214A.

<u>Eugene Enhanced Walking Network</u> Enhanced pedestrian crossings and sidewalk infill at various locations.

8th Avenue Streetscape and Bikeway Reconstruct roadway, move curbs, widen sidewalks, install protected bike lanes relocate street tree zone, convert 8th Ave to two-way street

<u>Maxwell Road and Prairie Road (Eugene)</u> Provide continuous walking route from River Road neighborhood and Bethel neighborhood, includes ADA access ramps, pedestrian countdown timers and APS, sidewalks, and crosswalks.

<u>South Bank shared use path</u> Repair and realign South Bank Path; rebuild 3,000 lineal feet of path; replace asphalt pavement with 12ft wide concrete; lighting and trail amenities.

<u>Regional bicycle enhancements (CLMPO)</u> Regional bicycle improvements including bicycle parking, bicycle repair stations, an e-bike loaner program, and maintenance of electronic bike lockers to promote transportation options.

<u>Division Ave intersection efficiencies (Eugene)</u> Planning for future safety improvements along Division Avenue to improve safety for all modes including roundabouts, reduction of travel lanes, marked crossings for bike/ped, turn diverters, traffic calming, buffered and protected bike lanes.

<u>18th Ave at Hilyard St (Eugene)</u> Intersection improvements including adding a bicycle-only signal phase, replacing ADA ramps, and striping improvements to promote safer travel for all modes

<u>Bike Share Planning and Operations 2022 (Eugene)</u> Funding to support PeaceHealth Rides (bike share) program for 2022 and 2023; enable planning for future bike share system expansion, increase outreach, and identify additional bike share partners to provide and promote transportation options and reduce greenhouse gas emissions.

<u>Bailey Hill Rd and Bertelsen Rd roundabout (Eugene)</u> Project will construct a roundabout with accompanying bicycle and pedestrian facilities at the intersection of Bailey Hill Rd and Bertelsen Rd to reduce vehicle speeds at the intersection and continuing on to more dense areas of Eugene.

City of Springfield

<u>OR126B: S 20th Street – 75th Street (Springfield)</u> Design for a future construction project to provide safety solutions identified by the Springfield Main Street Safety Planning Phase.

<u>Franklin Boulevard design phase 2</u> Complete design of Phase 2 of the Franklin Blvd project to transform Franklin Boulevard from an auto-oriented arterial into a multiway boulevard that serves all modes of travel.

<u>Mill Street: S. A Street to Centennial Boulevard (Springfield)</u> Repave roadway to create a smoother driving surface and make ADA upgrades. Complete reconstruction from Main St to Centennial Blvd. Decorative lighting from Main St to A St, replacement of sanitary sewer line, lateral lining, complete replacement of storm water line, adding bicycle facilities, adding traffic calming measures.

OR225: OR126 - end of City juris. (Springfield) Develop a design concept and complete NEPA analysis for the McVay Highway (OR225) corridor from Franklin Blvd (OR126) to the southern end of city jurisdiction (approx 0.9mi), to provide certainty to development along corridor and support the City's transportation safety priorities

OR126B at 54th St. (Springfield) Add intersection improvements to improve accessibility and safety at this intersection by adding left turn lanes on 54th Street, updating existing signal and installing ADA compliant curb ramps.

Lane Council of Governments

<u>Central Lane MPO planning SFY22</u> Planning funds for projects identified in state fiscal year 2022 of the Unified Planning Work Program (UPWP). The UPWP is a guide for transportation planning activities to be conducted over the course of each state fiscal year (July 1 to June 30).

<u>Central Lane MPO planning SFY23</u> Planning funds for projects identified in state fiscal year 2023 of the Unified Planning Work Program (UPWP). The UPWP is a guide for transportation planning activities to be conducted over the course of each state fiscal year (July 1 to June 30).

<u>Central Lane MPO planning SFY24</u> Planning funds for projects identified in state fiscal year 2024 of the Unified Planning Work Program (UPWP). The UPWP is a guide for transportation planning activities to be conducted over the course of each state fiscal year (July 1 to June 30). The UPWP includes activities to increase safe and accessible transportation options.

<u>Regional safety analysis & programming (CLMPO)</u> Expanding efforts of the Safe Lane Coalition including coalition coordination; safety data analysis; programming, educational marketing and outreach; temporary safety installations to improve transportation safety.

<u>Electronic Transportation Improvement Program Service FY22</u> Funding to pay for electronic Transportation Improvement Program (eTIP) platform service including system implementation. The eTIP service will reduce errors and provide a useful online resource to the public for information regarding federally funded transportation projects in the Portland, Salem, and Eugene metropolitan areas. *This project includes discretionary federal funding from CLMPO, ODOT and other Oregon MPOs.

Lane County

Howard Elementary & Colin Kelly MS traffic congestion mitig Install pedestrian activated flashing light at Maxwell Rd and N Park Ave and install new sidewalks on east side of N Park Ave between Maxwell Rd and Howard Ave (Lane County & City of Eugene) to reduce congestion and improve air quality.

<u>Gilham Road: Ayers Road to Mirror Pond Way</u> Design and build pavement and sidewalk improvements to extend useful life and improve pedestrian safety. Constructing between Ayers Road and Don Juan Avenue.

<u>Laura St upgrade (Springfield)</u> Upgrade Laura Street (MP 0.12 to MP 0.39) to urban standards to create a road that provides safe facilities for all users, avoid further costly pavement treatments, and facilitate the transfer of facility from Lane County to city of Springfield. Upgrade includes sidewalks, curbs, storm water treatment and bike lanes.

Lane Transit District

<u>LTD Glenwood Petroleum Fuel System Updates 5307 (2022)</u> Upgrade and replace the petroleum fuel system which has met its useful life at Lane Transit District's Glenwood facility to maintain good working condition of this asset.

<u>Preventive maintenance 2023 (LTD)</u> Funding used for preventative maintenance projects to extend useful life of current facilities using 5307 funds

<u>LTD Op. Comm. Control Ctr expansion 5307 (Springfield)</u> Operation Command Control Center expansion at Lane Transit District's Glenwood facility, including modern operations dispatch and restrooms to provide more productive and efficient service. Funded using FTA Section 5307 formula funds.

Oregon Department of Transportation

<u>OR569 over Union Pacific Railroad and NW Expressway (Eugene)</u> Complete design to replace bridge rail system to conform to current safety standards; joint replacement, and overlay the bridge driving surface to preserve the bridge structure.

OR58: Goshen-Pheasant Lane Grind existing surfacing and inlay the travel lanes. (Single Lift Inlay + Localized Asphalt/Concrete Pavement Repair) Update ADA as required.

<u>OR99W: 1st Ave - Enid Rd</u> Repave the road to create a smoother driving surface and extent its useful life.

OR569: Green Hill Rd. - Coburg Rd. (Eugene) Paving, median barrier, ADA upgrades, rail and deck strengthening at Prairie Rd bridge structure, bus pullout at Green Hill Rd. Install cameras and traffic sensors at various locations in Eugene to increase efficiency, safety and reduce maintenance costs. Replace bridge rail system on bridge over Union Pacific Railroad and NW Expressway and overlay the bridge driving surface to preserve the bridge structure.

<u>I-105: Willamette R - Pacific Hwy</u> Pavement resurfacing to repair rutting and wear, and restore smoothness on multiple bridges to extend useful life.

<u>OR99W: Theona Dr (Eugene)</u> Increase driver safety by constructing improvements to increase the intersection sight distance.

<u>City of Springfield signal enhancements (state highways)</u> Make signal enhancements on various signals on state highways and add illumination at the intersection of OR126 and 52nd Street for increased safety.

<u>Oregon Household Survey</u> Conduct survey across all Oregon to capture critical transportation user information necessary to inform transportation models and critical policy issues. *This project includes discretionary federal funding from CLMPO, ODOT and other Oregon MPOs.

OR132: Green Acres Rd to Good Pasture Island Rd Complete design to replace bridge over Beltline; add up to 2 lanes to southbound Delta; replace signal at westbound off-ramp; widen slough bridge on eastbound Beltline--all to improve traffic flow and safety.

Funding Programs

Projects in the Central Lane MPO utilize a wide variety of federal funding programs to implement the objectives of the Regional Transportation Plan. This section lists and describes those funding programs that obligated in FFY 2023 for projects in CLMPO.

<u>Congestion Mitigation and Air Quality improvement program (CMAQ)</u> provides annual funding to states and local jurisdictions to meet the requirements of the Clean Air Act. Funding is available for transportation projects and programs that reduce congestion and improve air quality. For projects in CLMPO to be eligible they must demonstrate a reduction of coarse particulate (PM10) emissions.

FFY 2023 obligations: \$82,030

<u>Carbon Reduction Program (CRP)</u> provides funds for projects designed to reduce transportation emissions, defined as carbon dioxide (CO2) emissions from on-road highway sources.

FFY 2023 obligations: \$65,000

FTA Section 5303 Formula funding provided by Federal Transit Administration for MPO planning.

FFY 2023 obligations: \$211,923

<u>FTA Section 5307</u> funds are distributed on a statutory formula basis to support capital, certain operating, and planning expenditures for publicly owned transit systems. The MPO policy board approved LTD as a direct recipient of these funds. LTD thus decides on which projects to spend these funds.

FFY 2023 obligations: \$13,320,000

<u>Highway Infrastructure Program (HIP)</u> for construction of federal-aid system roads, bridges and tunnels. The MPO will sometimes receive HIP funding to use at their discretion for eligible projects.

FFY 2023 obligations: \$450,990

<u>Highway Safety Improvement Program (HSIP)</u> funding for projects consistent with the state strategic highway safety plan, including improvements to intersections, signage, grade separations, pavement, and safe streets projects.

FFY 2023 obligations: \$341,747

<u>Metropolitan Planning (PL)</u> program establishes a cooperative, continuous, and comprehensive framework for making transportation investment decisions in metropolitan areas. Distribution of the funds is determined by a formula, developed by ODOT in consultation with the MPOs and approved by the Oregon Transportation Commission.

FFY 2023 obligations: \$943,171

<u>National Highway Performance Program (NHPP)</u> projects must be on an eligible facility and support progress toward achievement of national performance goals for improving infrastructure condition, safety, mobility, or fright movement on the National Highway System, and be consistent with metropolitan and statewide planning requirements.

FFY 2023 obligations: \$11,388,229

<u>Railway-Highway Crossings Program (RRXing)</u> Program provides funds for the elimination of hazards at railway-highway crossings.

FFY 2023 obligations: \$299,100

<u>Safe and accessible Transportation Options (SATO)</u> The Bipartisan Infrastructure Law (BIL aka IIJA) requires each MPO to use at least 2.5% of its PL funds (and each State to use 2.5% of its State Planning and Research funding) on specified planning activities to increase safe and accessible options for multiple travel modes for people of all ages and abilities.

FFY 2023 obligations: \$31,609

<u>Surface Transportation Block Grant (STBG)</u> Program has the most flexible eligibilities among all Federalaid highway programs. Funds are available for all roads not functionally classified as local or rural minor collector. Planning, capital, and bicycle-pedestrian projects are also eligible under this program. This funding is split into different programs; those referenced in this report are:

<u>Surface Transportation Block Grant – Urban (STBG-U)</u> funds provided to the MPO based on a formula set by the Federal Government in the Transportation Bill. The MPO receives approximately \$5M per year, subject to Congressional budgeting and has established a process by which these funds are programmed for eligible projects within the MPO's region. Eligible recipients include the MPO, Eugene, Springfield, Coburg, Lane County, LTD, ODOT, and other agencies. The awarding of these funds and the process used are approved by the MPO policy board.

FFY 2023 obligations: \$4,479,284

<u>Surface Transportation Block Grant (STBG)</u> funds provided to ODOT based on a formula set by the Federal Government in the Transportation Bill. Projects are selected at ODOT's discretion.

FFY 2023 obligations: \$4,880,938

<u>Transportation Alternatives - Urban (TA-U)</u> a set-aside of the STBG program for on- and off-road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and enhanced mobility among other activities. Funds provided to the MPO based on a formula set by the Federal Government in the Transportation Bill.

FFY 2023 obligations: \$222,282
