

December 30, 2022

To: Metropolitan Policy Committee

From: Paul Thompson and Kelly Clarke

Subject: MPC 6.b: Central Lane MPO Air Quality Conformity Determination (AQCD)  
for the 2045 Regional Transportation Plan (RTP)

**Action Recommended:** Approve Resolution 2022-02 adopting Central Lane MPO AQCD for the 2045 RTP.

### **Background and Discussion**

This agenda item is for adoption of the AQCD for the 2045 RTP. An air quality conformity determination is required under Federal and State regulations whenever the RTP is updated for other than administrative amendments.

The MPC reviewed, and held a public hearing on, the draft AQCD at its November 4, 2022 meeting. The public comment period on the draft was open September 30, 2021 through December 10, 2021. As of the date of this memo, no comments have been received.

The MPC's advisory Transportation Policy Committee (TPC), at its December 16, 2021 meeting, unanimously recommended adoption of the AQCD.

### **Requested Actions**

- Approve Resolution 2022-02 adopting the Central Lane MPO AQCD for the 2045 RTP.
