Project No. _____

Bike Share Planning & Operations

Project Visual:

Project Description:

Funding from the Central Lane MPO is requested to support a gap in PeaceHealth Rides operational funding for 2022 and 2023. This funding will also enable planning for future bike share system expansion, increase outreach, and identify additional bike share partners. Continued growth in bike share ridership is critical to reaching city goals around mode share and greenhouse gas emissions.

Since launching on April 19, 2018, people have taken the now nonprofit operated PeaceHealth Rides fleet of 300 bikes on more than 600,000 trips, which covers over 700,000 miles, or about 3 times the distance to the moon.

Each trip has averaged just over one mile, a critical middle distance that studies show is often too far to walk, and too inconvenient to ride transit.
