7

Transportation System Modeling and Data Maintenance

Key Products and Activities

- Data Maintenance
 - Network data for all modes,
 - Land use data
 - Census data (e.g. race, color, sex, age, disability, and language proficiency) for use in planning and monitoring
 - Employment data
 - Integration of 2020 Census Data, MPO Boundary Updates
- Maintain Modeling software
 - Urbansim
 - Emme
 - VisionEval
- Oregon Modeling Steering Committee
 - Oregon Travel Study
 - Development of an Activity Based Travel Model
- Data Portal
 - Bicycle, pedestrian, and vehicle counts
 - Crash data
 - Performance Measures

UPWP 24-25

7

8

Transportation Options

Key Products and Activities

- GetThere Platform (year long with events in Fall and Spring)
- Safe Routes to School Programming
 - Eugene 4J, Bethel, Springfield, and Rural Lane County
 - Youth Council collaboration
- EcoRule Implementation, large employer outreach
- Smart Trips programming (Individualized Marketing Campaign)
 - City of Eugene – New Movers Campaign
 - LCOG -Springfield Gateway area
- Congestion Management outreach in partnership with ODOT

UPWP 24-25

8

9

Intergovernmental Coordination

Key Products and Activities

- MPO Committees
 - Metropolitan Policy Committee
 - Transportation Planning Committee
 - Transportation Advisory Subcommittee
 - Transportation Options Advisory Committee
 - Youth Council
- ODOT and statewide Oregon MPO collaboration
 - Lane Area Commission on Transportation
 - Oregon MPO Consortium Meetings
 - Topic specific ODOT Committees (Modeling, Transportation Options, Safety, bike and pedestrian, etc.)

UPWP 24-25

9

10

Funding and Special Projects

Key Products and Activities

- Funding table (draft, will be updated before adoption)
- Special projects- includes other regional projects
- Certification Review Findings (Next certification will occur in fall of 2023)
