Subject: LTD's West Eugene EmX decision.

LTD Board,

Brian Weavers excellent letter I read this morning promoted me to respond to you as well on the upcoming vote. Although I would love to be at more of your public hearings there just does not seem to be enough hours in the day. Hours I spend employing people and creating a payroll that in part funds LTD.

I have been very upset by the advertising that you have been up to recently. What I hear in the ads is a tone deaf LTD board spending the money I am forced to send to you to convince me that the WEE is a good thing. THAT IS MONEY YOU ARE SUPPOSED TO BE PROVIDING BUSS SERVICE WITH. It is highly infuriating to hear Mr. Rode tell us how he loves LTD. Oh and the former LTD board member - shazam imagine shes all in for the WEE. I doubt I am alone in having this visceral reaction to our unelected board wasting the public's money.

FYI the way any public funded entity should advertise a job well done is by doing their job without throwing money away. Sadly LTD is miles and miles from having this attitude. Sadly LTD opposes a public vote. Sadly they serve at the sole discretion of one person who is no stranger to wasting the public's money. Sadly the public has almost no recourse to a tone deaf LTD board. All this frustration that resides in the public has one very strong outlet, this of course is OMOT. I fully support OMOT's efforts to bring accountability to LTD along with a majority of the community.

Jeff Lozar - Chair

Americans for Prosperity - Lane County Chapter

*What is ahead for America, will we turn back towards a limited government and increased freedom or will we continue down the government knows better than you road? Whatever it is you plan to do for your freedom and your country you have **29 days** to effect change and 4 years after that to live with it.*
